Can teach bit fast. I think he goes very slow while teaching but his point clear.
The practice questions could be explained more in detail with step-by-step progressions and darker and more pigmented markers could be used to be able to see the notes written on the board a little clearer.
Use a darker marker. Dont use red marker. Its hard to red marker with his cursive handwriting
NIL
He could provide furthermore explanations during lectures. It's very frustrating to ask questions as he keeps asking us to use google and doesn't give a proper answer especially during lab sessions
