A. Comments / Suggestion on Lecturer

- Dr Ling explains concepts in a way that is easy for us to understand.
- He explains the topics clearly.
- He is able to work with the students need and also able to answer any queries during class in the simplest explanation for us to understand.
- He can make the lessons interesting and his liveliness keeps the class awake.
- He goes too fast sometimes.

B. Comments / Suggestion on Module and Content

- The content is not too difficult to follow.
- I enjoyed the lessons.
- The practical questions were a little challenging to answer as some parts of the experiments were not done during the lab session.
- It's too short to comprehend everything.
- I just do not like Physics in general.
- Maybe it will be better to have a theory lecture of a topic before doing the practical otherwise, it is really hard to do from scratch for anyone without prior knowledge (like me).
