A   Overall Programme   Trainee Comments

1   If the score is "0 to 6", what are the reasons for the score you gave?

Trainee1	1 day too short
ZIN MINN HTIEK	N.A
Foong Soon Kwai	Not applicable to some

2   If the score is "7 to 8", what improvements can LHUB make for you to give a higher rating?

Trainee1	It is probably dependent on whether the person would use the knowledge in their work.
Trainee2	good intro to the concept and application. More in depth of the basics will be helpful.
Trainee3	Probably need a bit more coverage on the basic building blocks to Python since most of us have been out of school for pretty long, so even basic mathematical concepts can be unfamiliar to some.
Trainee4	As this is a beginner course, it will be useful if there was a simpler introductory approach to what is python and the definition of the rules and functions/syntax etc
ZIN MINN HTIEK	N.A
Ivy Tan	The course seems to assume that participants have basic coding knowledge, so explanation of simple terminologies were skipped over. So was a little confused and lost when the trainer was using those terms throughout the course.

3   If the score is "9 to 10", what do you like most for this programme?

Ong Thiam Hock Ken	Able to obtain the basic knowledge of Python Programming
Brenda	Hands-on and explanation on real life examples.
Ho Siew Fah	case study
ZIN MINN HTIEK	Very Useful and easy to understand.
Tan Lee Swan	easy to use

4   What other comments or suggestion do you have?
